ABSTRACT : PURPOSE: To obtain a perfume composition which can mask effectively for a long time ambient odors, body odors, cigarette odors, etc., by mixing a high concentration of at least two components of five specified perfume components with each other.

CONSTITUTION: This perfume composition is prepared by mixing a high concentration (as high as 10-5wt.%) of at least two members selected from the group consisting of acetyloctahydro-tetramethylenenaphthalene of formula I,  $\gamma$ -methylionone of formula II, hexahydrohexamethylcyclopentabenzopyran of formula III, methyl (trimethylcyclopentyl)pentanol of formula IV and isocamphylcyclohexanal of formula V. This composition is added to a cosmetic or a fragrance. The amount of this composition added is suitably 0.01-10.0wt.%.
